INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories (publishers of the Kinston City Directory since 1908), present to subscribers and the general public, this, the 1959 edition of the Kinston City Directory, which also includes Club Pines, Dupreeville, Green Acres, Greenmead and the rural routes emanating from the Kinston Post Office.

Confidence in the growth of Kinston's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Kinston to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Kinston Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city and vicinity, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city and vicinity. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or service than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a progressive community like Kinston, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Kinston, Club Pines, Dupreeville, Green Acres and Greenmead, and the name, official personnel, nature and address of each firm and corporation in the community.

793754

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fourth major department.

V. THE KINSTON RURAL ROUTES DIRECTORY is the fifth major department, printed on white paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Kinston and vicinity.

The Kinston Out-of-Town City Directory Library

Through the courtesy of the publishers of the Kinston City Directory, a Directory Library is maintained in the offices of the Kinston Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U.S. and Canada by Members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

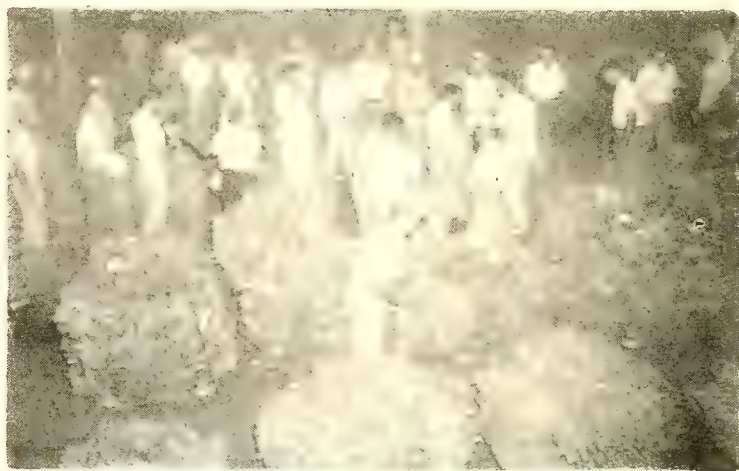

The beginning of what is now a thriving eastern Carolina city was a wilderness settlement and trading post on the banks of the Neuse River, 70 miles from the Atlantic Ocean, in Colonial 1740. Since that time Kinston has been multiplied many times over, and has become a well-balanced center of varied commerce. The forest trails and water travel of Colonial days have turned into paved highways and railway roadbeds, and the "trading post" now serves approximately 150,000 "settlers" in its territory.

The population of the river settlement has grown from a hardy handful early in the 19th century to an estimated 28,500 at present. Today Kinston is the seat of government of Lenoir

County, embracing 51,300 persons. The growth of Kinston always has been closely tied to agriculture, but now with the continued increase of population in the trade area, gradually developing industrial character is to be observed. The city, likewise, has become a permanent retail trading center for eastern North Carolina, and is the largest wholesale distribution point east of Raleigh.

From the basic agricultural work of the early settlers, engaged in survival, the production—first, of cotton, and later, tobacco—came a broader economic outlook and more prosperity. Today "King Cotton" has lost its autocracy and the "Golden-Leaf Tobacco" has become the economic ruler.

The rule of the "Golden-Leaf" has been a fruitful one, for \$30,904,113 poured into the farmers' purses as the result of sales on the Kinston market in 1958. Kinston's twelve tobacco warehouses provide ample sales space and facilities to accommodate more than 100,000,000 pounds of tobacco. Such a return from a single phase of the agricultural life of Kinston's "settlement" area, when boosted by the progress and return from the variety of other phases, has been reflected sharply in its growth.

Auction Scene from One of Kinston's Twelve Tobacco Warehouses

Following the establishment of a thriving market, tobacco-processing factories were built, and have taken their place among numerous other industrial establishments to make the river-bank trading post a center of economic wealth. Within the boundaries of Kinston, with its many miles of broad, paved streets, are located producers of clothing and other textiles, building materials and various types of consumer goods.

A network of improved highways lead out of Kinston into the Coastal Plain like the spokes of a wheel and two railroads provide carrier facilities of heavy goods and shipments. Electric power, with newly-added equipment and facilities, is available to the city's residential and industrial needs and is

Frosty Morn Meats, Inc., Federally Inspected Meat-Packing Plant

more than 40 percent above the peak demand at present. There are 50 manufacturing and processing firms located in the city, with nine large wholesale distributors, and over 400 retail stores and service institutions, all banded together to serve the requirements of the ever-growing population.

The economic soundness of Kinston can be attested by the three thriving banks, one having two branches including a drive-in bank, which serves its citizens and its business life. Surveys have shown a steadily-mounting check-clearance volume in the banks for a number of years. The solvency of the City government is shown by the ready sale, at all times, of the municipal bonds for street and utility improvements and for the construction of permanent municipal improvements.

The physical well-being of the city, and its citizens is no

Lenoir Memorial Hospital—County Owned and Operated

less sound than any other part of its life. With the location 70 miles from the coast on North Carolina's temperate plains, the weather—wet or dry, hot or cold—is one of the most healthful. Here, it is not a matter of how many days the sun shines each year, but whether it shines in proper proportion to the rainfall. The abundance and value of farm crops grown in the immediate vicinity is proof of ideal weather and climate.

Two modern hospitals, staffed by some of the country's most eminent physicians, surgeons and specialists, are here to serve the citizens of the area. More than 40 doctors and dentists reside and practice in the city, thereby making Kinston the medical center of eastern North Carolina. A well-organized public health program is carried on at all times to make for cleanliness and the eradication and treatment of disease. The Caswell Training School, the State's largest institution for the care of the mentally retarded and deficient, is located near the city. Kinston has a large modern library, with three branches and a mobile unit circulating 340,000 books and library materials annually. The library circulates, besides books, educational films and musical recordings and also sponsors Great Books discussion groups.

Kinston has the unique distinction of a perpetual artesian water supply coming from deep wells that provide water of the purest content east of the Rocky Mountains and is entirely untreated. The supply is unlimited for industrial and commercial use, as well as for home consumption.

Kinston citizens are friendly people, ever anxious to share their goods or services with the stranger within the city's gates. Kinston extends a cordial invitation to homeseekers, industrialists, retail traders, and men and women of all vocations to come here for a day, a year, or a lifetime.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Out of Sight • Out of Mind ★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight.
Insist on being well represented in its pages.

"Better Insurance at the Right Price"

WHAT'S OUR LINE?

BY J. T. SUTTON, JR.

If this word "MUTUAL" appears on your fire or casualty insurance policies, you, like 20,000,000 other Americans, are part of an American institution founded two centuries ago to give you financial protection—Save you money. In 1952 Mutual Insurance celebrated its 200th Birthday. Mutual Insurance has served every generation that has lived under the American Flag—through wars and peace, good times and bad. And each year, as more and more people have learned the value of mutual insurance, the number of mutual policyholders has grown.

Pioneered by Benjamin Franklin in 1752, mutual insurance had its beginnings among the early colonists who had learned that mutual helpfulness was practically essential to survival in their struggles against the elements and the hazards of a new land. Now, as then, this same idea of mutual helpfulness is the "heart" of mutual insurance.

We are available to you day and night to advise you in planning your Mutual Insurance Program, to counsel you in the event of an emergency or to aid in settling a claim, should your home, farm or business property be damaged. Also in case of an automobile, truck or commercial accident, we are on the job to see that justice is done and claims are promptly settled.

Every man knows more about his own business, profession or farm than an outsider. None of us can be expected to know all about every one else's business. Our business is Mutual Insurance: we have had to take examinations and pass with a high mark before we could get a license to sell policies, as insurance is a highly technical field. In addition, we are always on the alert for changes and improvements in new coverages in order to better serve our clients. You, being engaged in another line, no doubt have many questions as to proper and adequate coverage against possible loss. It is our business to analyze your insurance needs, develop a tailor-made program for you, your business or your farm interest. It would be a pleasure to survey your present policies, give you the benefit of our experience, and submit recommendations—in writing for your consideration—without obligation to you.

Our Agency has a 19 year old Safe Driver Program, consisting of professional and salesmen drivers from majority of Kinston's Leading Firms with safe driving records totaling over one thousand years. In addition to all benefits actually received, from September 1947 to September 1959, this Mutual Insurance Agency has returned many thousands of dollars in the form of Dividend Savings to its Policyholders in Kinston territory while rendering the finest Mutual Insurance sales and claim services money could buy.

Out of Sight! - Out of Mind! - Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business
 The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
 The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however influential, will slip into the limbo of the forgotten. If not persistently advertised, the City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten. If not persistently advertised, the City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight - Out of Mind

★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

HILL'S KINSTON

Directory of Householders, Occupants of Office
Buildings and Other Business Places, Includ-
ing a Complete Street and Avenue Guide

1959

Including Club Pines, Dupreeville, Green Acres
and Greenmead

Copyright, 1959, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupant or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individual or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

ADVERTISING JUDICIOUSLY

CREATES a New Business

REVIVES a Dull Business

ENLARGES an Old Business

RESCUES a Lost Business

PRESERVES a Large Business

SECURES Success in Any Business

SAVES a Failing Business

ENABLES You to Pay Your Taxes

**DIRECTORY ADVERTISING
BRINGS SATISFACTORY RESULTS!**

WHY A YELLOW PAGE SECTION?

The Yellow Page Section is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

***It is customary to include a Yellow Page Section in the City Directory because:**

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

**CITY DIRECTORY
ADVERTISING
IS *National* ADVERTISING**

★ Each edition of your City Directory is widely distributed to free - reference City Directory Libraries located at the Chambers of Commerce of Hundreds of other cities.

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.
